CMS Medicare Secondary Payer (MSP) Alert

To our providers, physicians, and suppliers:

CMS is encountering a severe issue where several providers, physicians and other suppliers are **denying** services and treatment to Medicare beneficiaries, due to an open MSP record on Common Working File (CWF). This practice must **not** be followed. Please share the following immediately with any billing, coding and revenue cycle staff involved.

It has come to CMS's attention again that there are some providers, physicians and other suppliers who are denying services to beneficiaries due to an open Medicare Secondary Payer record on the beneficiary Medicare record.

- Providers and suppliers shall **not deny** medical services or entry to a Skilled Nursing Facility (SNF) or hospital after you discover that there is an open or closed Group Health Plan (GHP), whether the beneficiary is entitled due to
 - Age
 - Disability

- End Stage Renal Disease (ESRD)
- Non-Group Health Plan (NGHP-Liability {L})
- No-Fault (NF)
- Workers' Compensation (WC)
- MSP record found in HIPAA Eligibility Transaction System (HETS) 270/271, or on CWF. You must continue to see Medicare beneficiaries if a claim that was previously mistakenly denied by Medicare, due to an MSP occurrence. These claims may be appealed through the appeal process.
- If services are covered under an open GHP or related to an NGHP, MSP accident or injury incident, bill the primary insurer first.
 - Situations where providers bill for services related to a new accident or injury, and not related to existing NGHP MSP record found on HETS or CWF
 - May need to use the same diagnosis codes that are found on the NGHP record in HETS and CWF
- Submit these claims to secondary Medicare, **after** you submit these claims to the appropriate GHP and/or NGHP insurer.
 - NGHP insurer may deny these claims if claim not related to the original accident or injury, or the case has not been settled
- After submitting these claims to Medicare, Medicare may mistakenly deny these services because the diagnosis codes on the claim are related to the diagnosis codes found on the NGHP MSP record on HETS and CWF.
 - Appeal inappropriately denied claims with Noridian.
- Physicians, providers, and other suppliers must provide an explanation or reason code to justify services **not related** to the accident or injury on record.
 - **Continue** to see or provide services to the beneficiary if those claims are mistakenly denied
- A Workers' Compensation Medicare Set Aside (WCMSA) MSP record is not a reason to deny services, but instead provides information, as to who is the appropriate primary payer for that situation.
- WCMSA is an agreement between the CMS and the CMS beneficiary about what value of settlement funds must be spent for care related to all settled WC injuries or illnesses before Medicare begins primary payment for those settled injuries or illnesses.
 - Must first verify, via the HETS 270/271 transaction, whether "W" WCSA record exists
 - Indication showing "W" MSP WCMSA record exists, the patient should have WCMSA that may pay for services, and then, the provider bills patient directly

- If WCMSA does not pay for all of the services, due to total benefits exhaustion, provider may submit Medicare bill indicating what the WCMSA paid
- Medicare may then pay as primary or secondary payer, dependent upon WCMSA status and how much it paid on the claim
 - Providers submits a bill with regular billing procedures indicating occurrence code 24 (insurance denied) and the date of denial in FL 31-36
 - Plus, supplementary statement calling attention that WCMSA denied payment or annotates FL 80, remarks, with the reason

Billing No-fault, Liability and Worker's Compensation Claims

When providers, physicians and other suppliers render services for beneficiaries who have an open NGHP found on CWF, and in HETS, they must bill as follows:

- NGHP record shows indicator of “Y” identifying there is Ongoing Responsibilities for Medicals (ORM), do **not** bill Medicare.
 - Bill NGHP insurer first as they are the proper primary payer for claims related to the accident or injury.
- If the NGHP record shows an indicator of “N” or “BLANK” (identifying there is no ORM), bill the NGHP insurer first. If the NGHP insurer denies the claim and identifies the reason for the denial on the remittance advice, the denial should be placed on your claim to Medicare.
 - Assists Medicare in determining to make **conditional** payment during the promptly payment period
- If there is an open employer Group Health Plan record on CWF and HETS, always bill the GHP insurer **first**, even before you bill the NGHP for both ORM and non-ORM claims.

Critical Access Hospital (CAH) Provider Reassignment

Providers performing outpatient services in a Critical Access Hospital (CAH) cannot submit services separately to Part B Medicare when billing reassignment has been signed over to the CAH. The Office of Inspector General (OIG) [report](#) identified improper Medicare payments to CAHs and healthcare professionals for the same CAH services.

As stated in CMS Internet Only Manual, Medicare Claims Processing Manual Publication [100-04, Chapter 4, Section 250.2](#): practitioners must sign an attestation that clearly states that they will not bill Medicare Part B for any services furnished in the CAH outpatient department once the reassignment has been given to the CAH.

[CMS MLN Information for Critical Access Hospitals](#) provides correct billing, compliance requirements and references to follow for healthcare professionals providing outpatient services in a CAH.

MBI Claim Denials CO16 and N382 Due to Outdated MBI Numbers

To protect patient's private information, Medicare beneficiaries will receive a new Medicare Beneficiary Identifier (MBI) number if they report their Medicare card lost or stolen. When a patient receives a new MBI number, providers must immediately switch to billing with the new MBI. Billing with the old MBI may result in receiving the below CARC and RARC rejection codes:

- CO16: Claim/Service lack information or has submission/billing error(s).
- [N382](#): Missing/Incomplete/Invalid patient identifier

If you receive a denial with the above remark codes, please verify the patient's MBI using the NMP [MBI Lookup Tool](#).

Medicare Participating Physician Directory Information for 2023

The Medicare Participating Physician Directory (MEDPARD) is a list of physicians, suppliers, and practitioners (Medicare health care providers) who have signed an agreement to accept assignment on all claims. When a Medicare provider accepts assignment, they agree to accept the Medicare approved amount as payment in full for a covered service and can only bill the patient for deductible, coinsurance, and any non-covered services.

CMS has instructed carriers to no longer print paper copies of the MEDPARD. Noridian, however, does have the [MEDPARD](#) database available on our website with a search capability that will allow the requestor to search for a participating provider by specialty, state, and city.

Participating providers should visit the MEDPARD directory to check their practice information for accuracy. Your participation information should appear on the website defined above.

Contact Provider Enrollment directly if specific information is incorrect, has changed or is not present. The information in the database is based upon information Noridian receives when initially enrolling providers in the Medicare program, or during annual open enrollment at the end of each year.

Online Assistance for Beneficiaries

As part of the ongoing effort to provide Medicare beneficiaries with information to help them make health care choices, CMS has a participating physician directory at <https://www.medicare.gov>, the CMS beneficiary website. The directory information can be found by selecting "Find care providers". The directory contains names, addresses, and specialties of Medicare participating physicians who have agreed to accept assignment for all covered services. You may search the directory by specialty, physician or non-physician practitioner, location, gender, or last name.

Medicare Physician Fee Schedule Reductions - Appeals Newsletter Part 4

Prior Authorization (PA) for Facet Joint Intervention

Effective for dates of service beginning July 1, 2023, CMS has added a new service category to the Hospital Outpatient Department (OPD) Prior Authorization program. This additional hospital OPD service category will require prior authorization as a condition of payment for facet joint interventions. CPT codes include the range of 64490-64495 and 64633-64636 when performed in a hospital OPD place of service 19 (off-campus outpatient hospital) or 22 (on-campus outpatient hospital).

This new service will be in addition to the existing Prior Authorization services, which include blepharoplasty, botulinum toxin injection, rhinoplasty, panniculectomy, vein ablation, cervical fusion with disc removal, and implanted spinal neurostimulators.

Introductory letters will be mailed during the month of May 2023, to providers currently billing for facet joint interventions in hospital OPDs.

Public Health Emergency (PHE) 1135 Waivers: Updated Guidance for Providers

On February 9, the Department of Health and Human Services (HHS) announced the [Public Health Emergency \(PHE\) for COVID-19 will end on May, 11, 2023](#). COVID-19 remains a significant priority for the Biden-Harris Administration and over the next several months, the Centers for Medicare & Medicaid Services (CMS) will work to ensure a smooth transition. During the PHE, CMS has used a combination of emergency authority waivers, regulations, enforcement discretion, and sub-regulatory guidance to ensure easier access to care during the PHE for health care providers and their beneficiaries.

Some of the flexibilities that were created during the pandemic were recently expanded by the Consolidated Appropriations Act, 2023. Others, while critical during our initial responses to COVID-19, are no longer needed. CMS has made further updates to our [CMS Emergencies Page](#) with useful information for providers - specifically around major telehealth and individual waivers - that were initiated during the Public Health Emergency (PHE).

Please reference the following guidance in response to the PHE ending May 11, 2023:

Reducing Appeal and Written Correspondence Workload - Appeals Newsletter Part 3

Are you aware that you can cut down on the amount of work you do by using the Noridian Medicare Portal (NMP)?

- **Claims and Appeals Status** - Check before calling about a claim or an appeal to see if it has completed processing before asking for a status update
- **Are you appealing the correct level?**
 - If appeal is finalized, you need to file a Reconsideration
 - JF Part B Reconsideration
- **Written Correspondence** - check the NMP before resubmitting your communication request.

What can you do?

- Update information
- Delete claims filed in error
- Determine what stage your claim is in
- Get needed forms
- Determine if you sent in an appeal, and the status it is in

Resumption of Comprehensive Error Rate Testing (CERT) Letters

The CERT team will resume sending letters for CERT claims. Letters will begin to be sent out to providers/suppliers for Non-Responders, Additional Documentation Requests (ADRs) and claims that are found to be in error. If you have any questions on the status of your review please visit the [Noridian Medicare Portal](#).

System Availability Notifications

The Noridian Medicare Portal (NMP) uses the Claims Processing Systems to retrieve data for various inquiries. The Claims Processing Systems go offline nightly to cycle the claim information. When these systems are offline, some inquiries on NMP are unavailable. To better serve our users, Noridian has implemented System Availability Notices that will be displayed when the systems are offline and 10 minutes prior to the system going offline.

Users will not see any disruption during our normal business hours, as these notices are provided as a courtesy to our users. Users can anticipate seeing these notices starting around 7:50 P.M. Central Time.

Users can view our Hours of Availability anytime on the [Contact Us](#) page of NMP.

Billing and Coding: Routine Dental Services Article Retirement - January 1, 2023

The following Local Coverage Determinations (LCDs) and associated Billing and Coding Articles (LCA) have been retired under contract number: 02102 (AK), 03102 (AZ), 02202 (ID), 03202 (MT), 03302 (ND), 02302 (OR), 03402 (SD), 03502 (UT), 02402 (WA), and 03602 (WY).

Medicare Coverage Database Number	Billing and Coding Article Title
A52977	Billing and Coding: Routine Dental Services

Effective Date: January 1, 2023

Summary: Coverage articles may be retired due to lack of evidence of current problems or CMS may have issued guidance regarding national coverage. The Noridian guidance in the retired article may still be helpful in assessing medical necessity. Where providers have adjusted their billing and coding practices to correspond to the guidance in a coverage article, they will want to be very careful in departing from these practices just because the article is retired. Provider offices remain responsible for correct performance, coding, billing, and medical necessity under Medicare. This responsibility for correct claims submission is unchanged whether or not there is a coverage article in place.

Visit the [Medicare Coverage Database](#) to access retired articles.

Provider Notice - Dental Services, March 2023

Noridian is aware of the changes to the dental services exclusion as noted in the MPFS and OPFS CY 2023 Final Rules. Currently, we are in the process of working with the Centers for Medicare and Medicaid Services on crafting provider education. In the meantime, if you plan to but have not yet enrolled as a Medicare provider, feel free to check out the provider enrollment page on our website. Further updates are forthcoming and will be posted to our listserv and website in the near future.

Visit the [Provider Enrollment](#) website for more information.

2023 Annual Update of HCPCS Codes for SNF CB Update

Related CR Release Date: August 25, 2022

Related CR Transmittal Number: R11573CP

Related Change Request (CR) Number: 12829

Effective Date: January 1, 2023

Implementation Date: January 3, 2023

CR 12829 identifies the changes to Healthcare Common Procedure Coding System (HCPCS) codes and explain how Medicare Physician Fee Schedule designations will be used to revise Common Working File (CWF) edits to allow A/B Medicare Administrative Contractors (MACs) to make appropriate payments in accordance with policy for Skilled Nursing Facility (SNF) Consolidated Billing (CB) in Chapter 6, Section 110.4.1 for A/B MACs (B) and Chapter 6, Section 20.6 for A/B MACs (A).

Make sure your billing staff knows about these changes.

2023 Annual Update of Per-Beneficiary Threshold Amounts

Related CR Release Date: October 6, 2022

Related CR Transmittal Number: R11626CP

Related Change Request (CR) Number: 12923

Effective Date: January 1, 2023

Implementation Date: January 3, 2023

CR 12923 updates the annual per-beneficiary incurred expenses amounts now called the KX modifier thresholds and related policy for calendar year 2023. These amounts were previously associated with the financial limitation amounts that were more commonly referred to as “therapy caps,” before their application was repealed when the Bipartisan Budget Act of 2018 was signed into law. Information related to this recurring update notification can be found in Publication 100-04, Chapter 5, Section 10.

Below is the Centers for Medicare & Medicaid (CMS) Medicare Learning Network (MLN) Matters Disclaimer statement that applies to all MLN Matters articles in this bulletin.

“This article was prepared as a service to the public and is not intended to grant rights or impose obligations. MLN Matters articles may contain references or links to statutes, regulations or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.”

Sources for “Medicare B News” Articles

The purpose of “Medicare B News” is to educate the Noridian Medicare Part B provider community. The educational articles can be advice written by Noridian staff or directives from CMS. Whenever Noridian publishes material from CMS, we will do our best to retain the wording given to us; however, due to limited space in our bulletins, we will occasionally edit this material. Noridian includes “Source” following CMS derived articles to allow for those interested in the original material to research it on the [CMS Manuals](#) webpage. CMS Change Requests and the date issued will be referenced within the “Source” portion of applicable articles.

CMS has implemented a series of educational articles within the Medicare Learning Network (MLN), titled “MLN Matters,” which will continue to be published in Noridian bulletins. The Medicare Learning Network is a brand name for official CMS national provider education

Unsolicited or Voluntary Refunds Reminder

All Medicare providers need to be aware that the acceptance of a voluntary refund as repayment for the claims specified in no way affects or limits the rights of the Federal Government, or any of its agencies or agents, to pursue any appropriate criminal, civil, or administrative remedies arising from or relating to these or any other claims.

Background

Medicare carriers and intermediaries and AB MACs receive unsolicited or voluntary refunds from providers. These voluntary refunds are not related to any open accounts receivable. Providers billing intermediaries typically make these refunds by submitting adjustment bills, but they occasionally submit refunds via check. Providers billing carriers usually send these voluntary refunds by check.

Related Change Request (CR) 3274 is intended mainly to provide a detailed set of instructions for Medicare carriers and intermediaries regarding the handling and reporting of such refunds. The implementation and effective dates of that CR apply to the carriers and intermediaries. But, the important message for providers is that the submission of such a refund related to Medicare claims in no way limits the rights of the Federal Government, or any of its agencies or agents, to pursue any appropriate criminal, civil, or administrative remedies arising from or relating to those or any other claims.

Additional Information

The official CMS CR3274 instruction may be viewed in the Medicare Learning Network (MLN) Matters article [MM3274](#).

Do Not Forward Initiative Reminder

The Internet Only Manual (IOM) Medicare Claims Processing Manual, Publication 100-04 instructs Part A and Part B Medicare Administrative Contractors (A/B MACs) and carriers to use “return service requested” envelopes when mailing paper checks and remittance advices to providers.

Contacts, Resources, and Reminders

When the post office returns a “return service requested” envelope, the A/B MAC/carrier applies a “do not forward” (DNF) flag to the provider's Medicare enrollment file. The A/B MAC/carrier will not generate any additional checks for that provider until the provider sends a properly completed change of address form back to the A/B MAC/carrier. We are not required to contact the provider to notify them that the flag has been added to their file.

Upon verifying the new address, the A/B MAC/carrier removes the DNF flag and can again generate payments for the provider. Electronic Funds Transfer (EFT) is required; therefore, when the address change update is completed, the provider will be set up to use EFT and will no longer receive paper checks.

Note: Because many providers get paid through EFT, there may be cases where a provider does not have a correct address on file, but the A/B MAC/carrier continues to pay the provider through EFT. It is still the provider's responsibility to submit and address change update so that remittance notices and special checks would be sent to the proper address.

Noridian encourages providers to enroll or make changes using Internet-based Provider Enrollment, Chain and Ownership System (PECOS) for faster processing time. Applications and changes completed online currently have an average processing time of 10 days. All Medicare providers may use the new enrollment process on the CMS [Medicare Enrollment](#) website. To log into this internet-based PECOS, providers will use their NPI Userid and password.

Policy

Effective October 1, 2002, A/B MACs/carriers must use “return service requested” envelopes for hardcopy remittance advices and checks, with respect to providers that have elected to receive hardcopy remittance advices. (PM B-02-023, CR 2038 dated April 12, 2002; Transmittal 1794, CR 2684 dated May 2, 2003)

Implementation Process

1. “Return service requested” envelopes are used for all hardcopy remittance advices starting October 1, 2002. These envelopes will be used for all providers.
2. “Return service requested” envelopes will not be used for beneficiary correspondence, such as Medicare Summary Notices (MSNs) or for overpayment demand letters.
3. When the post office returns a remittance advice due to an incorrect address, A/B MACs/carriers will follow the same procedures as followed for returned checks, that is:
 - Flag the provider's file DNF.
 - A/B MAC/carrier staff will notify provider enrollment team.
 - A/B MAC/carriers will cease generating any further payments or remittance advice to that provider or supplier until furnished with a new, verified address.
4. When the provider establishes a new, verified address, A/B MACs/carriers will remove the DNF flag and pay the provider any funds which are still being held due to a DNF flag. A/B MAC/carriers must also reissue any remittance advices, which have been held.

Contacts, Resources, and Reminders

5. Previously, CMS only required corrections to the “pay to” address. However, with the implementation of this initiative, CMS requires corrections to all addresses before the contractor can remove the DNF flag and begin paying the provider or supplier again. Therefore, A/B MAC/carriers cannot release any payments to DNF providers until the provider enrollment department has verified and updated all addresses for that provider's location.

IRS-1099 Reporting

Provider or supplier checks returned and voided during the same year they were issued are not reported on the Internal Revenue Service (IRS) Form 1099 until the returned check is reissued (i.e., the DNF flag is removed and the A/B MAC/carrier reissues payment to the provider.) Checks returned and voided in the current year that were issued in prior years are not netted from the current year's IRS Form 1099.

Monies withheld because a DNF flag exists on a provider or supplier record are not reported on IRS-1099s until the calendar year in which payment is made (i.e., the point at which the A/B MAC/carrier pays the provider once the DNF flag is removed.) If DNF amounts are erroneously included on IRS-1099 forms, A/B MACs/carriers will issue corrected IRS Form 1099s to affected providers.

Jurisdiction F Part B Quarterly Ask-the-Contractor Teleconferences

ACTs are designed to open communication between providers and Noridian, which allows for timely identification of problems, and sharing information in an informal and interactive question and answer (Q&A) format. No Personal Health Information (PHI) is allowed.

Noridian representatives from various Part B departments are available to address your Medicare questions and concerns. All questions are entertained and the Q&As are posted on our website for provider convenience.

ACT dates, times, toll-free number, and Q&As are available on the [Jurisdiction F Part B Ask-the-Contractor Teleconferences](#) webpage.

Attendees must register through a free web-based training tool (GoToWebinar) which requires an Internet connection and a toll-free telephone number (provided in confirmation email). Allow email registrations@noridian.com. Unless otherwise specified, ACTs are general in nature. No CEUs are provided.

By completing and submitting the Noridian Part B [ACT Question Submission Form](#), providers may ask question(s), up to five (5) days prior, to be answered during the next ACT. Questions submitted with this form will be answered first. Lines will then be opened for additional questions, as time permits. **Do not include any Personal Health Information (PHI) or claim**
