At minimum, the rebuttal submission must:

1. Be received within 15 calendar days from the date of the deactivation notice;
2. Specify the facts or issues with which the provider or supplier disagrees, and the reasons for disagreement;
3. Include all documentation and information the provider or supplier would like to be considered in reviewing the deactivation;
4. Be submitted in the form of a letter that is signed and dated by the individual provider, supplier, the authorized or delegated official, or a legal representative. The provider's or supplier's contact person (as listed in section 13 of the Form CMS-855) does not qualify as a "legal representative" for purposes of signing a rebuttal request.
