CMS National Coverage Policy

Title XVIII of the Social Security Act, Section 1862(a)(1)(A). This section allows coverage and payment for only those services that are considered to be medically reasonable and necessary.

Title XVIII of the Social Security Act, Section 1833(e). This section prohibits Medicare payment for any claim, which lacks the necessary information to process the claim.

Coverage Guidance

Coverage Indications, Limitations, and/or Medical Necessity

Note: Providers should seek information related to National Coverage Determinations (NCD) and other Centers for Medicare & Medicaid Services (CMS) instructions in CMS Manuals. This LCD only pertains to the contractor's discretionary coverage related to this service.

Radiologic examination of the chest (chest X-ray) facilitates the detection, diagnosis, staging and management of pathophysiologic processes involving thoracic, cardiovascular, pulmonary and mediastinal structures, contiguous coverings and the bony thorax. These examinations are covered by Medicare when medically necessary and appropriate for evaluation and management of a specific symptom, sign, disease or injury.

Chest X-rays are utilized in a variety of clinical states.

Generally accepted medical diagnoses are enunciated as Covered ICD-10 Codes (Covered Codes). Noridian Administrative Services will utilize these Covered Codes, and medical consultation, to assess medical necessity and appropriate utilization.

Routine, screening, pre operative or periodic examinations in the absence of symptoms, signs or disease states as represented by Covered ICD-10-CM Codes will not be reimbursed [Section 1862(a)(1)(A) of the Social Security Act].

Following a stable chronic condition, generally one examination in a twelve-month period will be considered appropriate. In acute or subacute conditions or when new symptoms or findings are documented, more frequent examinations will be considered for reimbursement and are subject to medical necessity review.

Submission with a Covered Code does not, a priori, equate with reimbursement. Clinical setting and examination

frequency will also be assessed.

Coding Information

Bill Type Codes:

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.

012x Hospital Inpatient (Medicare Part B only)
013x Hospital Outpatient
022x Skilled Nursing - Inpatient (Medicare Part B only)
023x Skilled Nursing - Outpatient
085x Critical Access Hospital

Revenue Codes:

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the policy, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the policy should be assumed to apply equally to all Revenue Codes.

CPT/HCPCS Codes

Group 1 Paragraph:

The Section titled "Does the 'CPT 30% Rule' apply?" needs clarification. This rule comes from the AMA (American Medical Association), the organization that holds the copyrights for all CPT codes. The rule states that if, in a given section (e.g., surgery) or subsection (e.g., surgery, integumentary) of the CPT Manual, more than 30% of the codes are listed in the LCD, then the short descriptors must be used rather than the long descriptors found in the CPT Manual.

Note: Effective 01/01/2017, Providers must add modifier FX (X-ray taken using film) on chest-x-rays taken using film.

Group 1 Codes:

- 71045 X-ray exam chest 1 view
- 71046 X-ray exam chest 2 views
- 71047 X-ray exam chest 3 views
- 71048 X-ray exam chest 4+ views
