

We're a Provider-Based Facility

YOU MAY RECEIVE TWO BILLS FOR YOUR VISIT TODAY

This facility is wholly owned and operated by a hospital which allows us to offer an expanded catalogue of services to our patients. The services you receive today may be split into two separate bills:

1. **Practitioner bill** for professional services provided; and
2. **Facility bill** for the use of equipment and resources.

You may receive more than one bill for your visit with us today.

This is a standard practice for provider-based facilities and is nothing to be concerned about.

Your practitioner and the facility bill for different components of your visit.

Those services get billed on different claim forms, creating two bills.

If you have questions regarding your bill, please let us know how we can help.
