CMS National Coverage Policy

Title XVIII of the Social Security Act, Section 1862(a)(7) excludes routine physical examinations. This provision excludes screening examinations.

Title XVIII of the Social Security Act, Section 1862(a)(1)(A) allows coverage and payment for only those services that are considered reasonable and necessary.

Title XVIII of the Social Security Act, Section 1833(e) prohibits Medicare payment for any claim, which lacks the necessary information to process the claim.

Title XVIII of the Social Security Act, Section 1862(a)(1)(D) prohibits Medicare payment for services and items that are experimental or investigational.

CMS publication 100-3, Medicare National Coverage Determinations, Sections 220.1 “Computerized Tomography”, and 220.2-220.2.B.2d and Section 220.2.C-220.2.D “Magnetic Resonance Imaging”.

Denies coverage of MRI for:

1. Imaging of cortical bone and calcification;
2. Procedures involving spatial resolution of bone or calcification;
3. MRI is not covered for patients with metallic clips on vascular aneurysms

CMS publication 100-04 Medicare Claims Processing Manual Chapter 13 Section 40.

Denies coverage of MRI for:

1. Measurement of blood flow and spectroscopy

Article Guidance

Article Text:

The following coding and billing guidance is to be used with its associated Local Coverage Determination.

Documentation Guidelines

Diagnostic evaluation of the head and neck (head/neck scans) performed by computerized tomography (CT) scanners is covered when the documentation supports that the scan is reasonable and necessary. Accurate coding information must be provided with claims to differentiate CT and/or MRI scans from other radiology services and to
make coverage determinations. Sufficient documentation such as, history and physical notes, laboratory results, signs and symptoms of the disease to warrant the diagnostic test and to support the claim of reasonable and necessary must be included in the medical records. This information must be available to Medicare upon request.

**Coding Guidelines**

The HCPCS/CPT code(s) may be subject to Correct Coding Initiative (CCI) edits in addition to guidance in this LCD. Please refer to the CCI for correct coding guidelines and specific applicable code combinations prior to billing Medicare. Whichever guidance is more restrictive should be adhered to.

---

ICD-10 Codes that Support Medical Necessity

Group 1 Paragraph:

The following list of ICD-10-CM codes represents diagnoses that, alone or together, support the medical necessity of either MRIs or CTs. These diagnoses must be supported by appropriate documentation of medical necessity in the medical record. These are the only covered diagnoses:

Group 1 Codes:

<table>
<thead>
<tr>

**Group 1 Medical Necessity ICD-10 Codes Asterisk Explanation:**

* Effective 8/11/15 K04.8, M26.02, M26.04, M26.12, M26.69, S02.5XXA, S02.5XXB, S02.5XXD, S02.5XXG, S02.5XXK, S02.5XXS, S03.2XXA S03.2XXD and S03.2XXS **may be** considered routine dental services. Providers **must** have documentation available for review to support these services are reasonable and necessary and not routine dental services.

*The asterisked ICD-10-CM codes that are **NOT** any of the asterisked codes listed directly above should only be coded when they involve conditions of the head or neck/spine (C1-C7).**

**ICD-10 Codes that DO NOT Support Medical Necessity**

N/A

**Additional ICD-10 Information**

N/A
Bill Type Codes:
Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.

Revenue Codes:
Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the policy, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the policy should be assumed to apply equally to all Revenue Codes.
