**Article Guidance**

**Article Text:**

The following coding and billing guidance is to be used with its associated Local coverage determination.

To report a BDX-XL2 service, please submit the following claim information:

- Enter 1 unit of service (UOS)
- Enter the appropriate DEX Z-Code™ identifier adjacent to the HCPCS code in the comment/narrative field for the following Part B claim field/types:
  - Loop 2400 or SV101-7 for the 5010A1 837P
  - Item 19 for paper claim
- Enter the appropriate DEX Z-Code™ identifier adjacent to the HCPCS code in the comment/narrative field for the following Part A claim field/types:
  - Line SV202-7 for 837I electronic claim
  - Block 80 for the UB04 claim form
- Select the appropriate ICD-10-CM code
  - The ICD-10 code R91.8 may be used when a patient has multiple lung nodules with a single nodule of concern. To indicate that R91.8 is being used for this purpose, use the KX modifier following the CPT code. The use of this modifier indicates an attestation that the patient has multiple lung nodules with a single nodule of concern for malignance.
  - If the code R91.8 is being used to describe another (non-covered) diagnosis, use the appropriate modifier (GA, GZ) to indicate that the service is non-covered as not reasonable and necessary.

ICD-10 Codes that DO NOT Support Medical Necessity

N/A
Additional ICD-10 Information
N/A

Bill Type Codes:
Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.
N/A

Revenue Codes:
Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the policy, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the policy should be assumed to apply equally to all Revenue Codes.
