CMS National Coverage Policy

Title XVIII of the Social Security Act (SSA), §1862(a)(1)(A), states that no Medicare payment shall be made for items or services that "are not reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member."

Article Guidance**Article Text:**

FANCC gene testing is performed in association with Fanconi anemia (FA), a condition characterized by physical abnormalities, bone marrow failure, and increased risk of malignancy. For infants and children, FANCC genetic testing is used to confirm the clinical findings, such as blood counts and bone marrow biopsy, to diagnose FA. Genetic testing for adults is used to screen potential carriers of the mutation. Therefore, the MoIDX Team has determined that testing for the FANCC is not a Medicare benefit and is a statutorily excluded service. In addition to single gene testing, MoIDX will also deny panels of tests that include the FANCC gene.

To receive a FANCC test denial, please submit the following claim information:

- An Advance Beneficiary Notice (ABN) is not required for statutorily excluded services.
 - For a voluntary issued ABN, append with GX modifier
 - To indicate a valid ABN is on file for a known statutorily excluded service, append with a GY modifier
- For CPT® non-NOC codes, Labs may either use the SV101-7 or SV202-7 (preferred) or the NTE field to submit this required information.
 - Enter the appropriate DEX-Z-Code™ identifier adjacent to the CPT® code in the comment/narrative field for the following Part B claim field/types:
 - Loop 2400 or SV101-7 for the 5010A1 837P
 - Item 19 for paper claim
 - Enter the appropriate DEX-Z-Code™ identifier adjacent to each code in the comment/narrative filed for the following Part A claim field types:
 - Line SV202-7 for 837I electronic claim
 - Block 80 for the UB04 claim form

Bill Type Codes:

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.

N/A

Revenue Codes:

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the policy, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the policy should be assumed to apply equally to all Revenue Codes.
