CMS National Coverage Policy
Title XVIII of the Social Security Act, §1862(a)(1)(A). Allows coverage and payment for only those services that are
considered to be reasonable and necessary.

42 CFR 410.32(a). Order diagnostic tests.

42 CFR 411.15(k)(1). Particular Services excluded from coverage.

**Coverage Guidance**

**Coverage Indications, Limitations, and/or Medical Necessity**

This is a **NON**-coverage policy for all circulating tumor cells (CTC) assays. This policy does not address tests for circulating free or circulating tumor DNA (cfDNA; ctDNA).

**Summary of Evidence**

Although the detection of elevated CTCs during therapy is a definitive indication of subsequent rapid disease progression and mortality in breast, colorectal and prostate cancer, no data has been forthcoming to demonstrate improved patient outcomes, or that the assay changes physician management to demonstrate improved patient outcomes.

**Analysis of Evidence**

(Rationale for Determination)

**Level of Evidence**

Quality of evidence – absent

Strength of evidence – absent

Weight of evidence – absent

CTC testing for all malignant diagnoses will be denied as not reasonable and necessary under Title XVIII of the Social Security Act, §1862(a)(1)(A). There are been no substantive articles demonstrating clinical utility for this assay – prospective studies that demonstrate improved patient outcomes based on testing results, or that testing changes physician management to change patient outcomes.

<td>Added MolDX into the title of the LCD and revised verbiage to be consistent with the MolDX Program. There is no change in coverage. At this time 21st Century Cures Act will apply to new and revised LCDs that restrict coverage which requires comment and notice. This revision is not a restriction to the coverage determination; and, therefore not all the fields included on the LCD are applicable as noted in this policy.</td>
