**CMS National Coverage Policy None**
**Coverage Guidance**

**Coverage Indications, Limitations, and/or Medical Necessity**

For any item to be covered by Medicare, it must 1) be eligible for a defined Medicare benefit category, 2) be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, and 3) meet all other applicable Medicare statutory and regulatory requirements.

The purpose of a Local Coverage Determination (LCD) is to provide information regarding “reasonable and necessary” criteria based on Social Security Act § 1862(a)(1)(A) provisions.

In addition to the “reasonable and necessary” criteria contained in this LCD there are other payment rules, which are discussed in the following documents, that must also be met prior to Medicare reimbursement:

- The LCD-related Standard Documentation Requirements Requirements Article, located at the bottom of this policy under the Related Local Coverage Documents section.
- The LCD-related Policy Article, located at the bottom of this policy under the Related Local Coverage Documents section.
- Refer to the Supplier Manual for additional information on documentation requirements.
- Refer to the DME MAC web sites for additional bulletin articles and other publications related to this LCD.

For the items addressed in this LCD, the “reasonable and necessary” criteria, based on Social Security Act § 1862(a)(1)(A) provisions, are defined by the following coverage indications, limitations and/or medical necessity.

Eye prostheses are covered for a beneficiary with absence or shrinkage of an eye due to birth defect, trauma or surgical removal.

Polishing and resurfacing (V2624) is covered on a twice per year basis.

One enlargement (V2625) or reduction (V2626) of the prosthesis is covered without documentation. Additional enlargements or reductions are rarely medically necessary and are therefore covered only when there is information in the medical record which supports medical necessity. This information must be available upon request.

If an item or service does not meet the criteria specified in this section, it will be denied as not reasonable and necessary unless there is documentation in the medical record clearly explaining the medical necessity in the individual situation.

**GENERAL**

A Detailed Written Order (DWO) (if applicable) must be received by the supplier before a claim is submitted. If the supplier bills for an item addressed in this policy without first receiving a completed DWO, the claim shall be denied as not reasonable and necessary.

An item/service is correctly coded when it meets all the coding guidelines listed in CMS HCPCS guidelines, LCDs, LCD-related Policy Articles, or DME MAC articles. Claims that do not meet coding guidelines shall be denied as not reasonable and necessary/incorrectly coded.

Proof of delivery (POD) is a Supplier Standard and DMEPOS suppliers are required to maintain POD documentation in their files. Proof of delivery documentation must be made available to the Medicare contractor upon request. All services that do not have appropriate proof of delivery from the supplier shall be denied as not reasonable and necessary.

**Summary of Evidence**

N/A

**Analysis of Evidence**
Coding Information

Bill Type Codes:
Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.

Revenue Codes:
Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the policy, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the policy should be assumed to apply equally to all Revenue Codes.

CPT/HCPCS Codes

**Group 1 Paragraph:** The appearance of a code in this section does not necessarily indicate coverage.

**HCPCS MODIFIERS:**

- EY - No physician or other licensed health care provider order for this item or service
- LT - Left side
- RT - Right side

**HCPCS CODES:**

**Group 1 Codes:**

- L9900 ORTHOTIC AND PROSTHETIC SUPPLY, ACCESSORY, AND/OR SERVICE COMPONENT OF ANOTHER HCPCS "L" CODE
- V2623 PROSTHETIC EYE, PLASTIC, CUSTOM
- V2624 POLISHING/RESURFACING OF OCULAR PROSTHESIS
- V2625 ENLARGEMENT OF OCULAR PROSTHESIS
- V2626 REDUCTION OF OCULAR PROSTHESIS
- V2627 SCLERAL COVER SHELL
- V2628 FABRICATION AND FITTING OF OCULAR CONFORMER
General Information

Associated Information

DOCUMENTATION REQUIREMENTS

Section 1833(e) of the Social Security Act precludes payment to any provider of services unless “there has been furnished such information as may be necessary in order to determine the amounts due such provider.” It is expected that the beneficiary's medical records will reflect the need for the care provided. The beneficiary's medical records include the treating practitioner's office records, hospital records, nursing home records, home health agency records, records from other healthcare professionals and test reports. This documentation must be available upon request.

GENERAL DOCUMENTATION REQUIREMENTS

In order to justify payment for DMEPOS items, suppliers must meet the following requirements:

- Prescription (orders)
- Medical Record Information (including continued need/use if applicable)
- Correct Coding
- Proof of Delivery

Refer to the LCD-related Standard Documentation Requirements article, located at the bottom of this policy under the Related Local Coverage Documents section for additional information regarding these requirements.

Refer to the Supplier Manual for additional information on documentation requirements.

Refer to the DME MAC web sites for additional bulletin articles and other publications related to this LCD.

POLICY SPECIFIC DOCUMENTATION REQUIREMENTS

Items covered in this LCD have additional policy-specific requirements that must be met prior to Medicare reimbursement.

Refer to the LCD-related Policy article, located at the bottom of this policy under the Related Local Coverage Documents section for additional information.

END OF LOCAL COVERAGE DETERMINATION
Per the Code of Federal Regulations, 42 C.F.R § 426.325, only those portions of the currently effective Local Coverage Determination (LCD) that are based on section 1862(a)(1)(A) of the Social Security Act, may be challenged through an acceptable complaint as described in 42 C.F.R § 426.400. Also, per 42 C.F.R § 426.325 items that are not reviewable, and therefore cannot be challenged, include the Policy Article. Please note the distinction of the documents when reviewing the materials.

Article Guidance

Article Text:
NON-MEDICAL NECESSITY COVERAGE AND PAYMENT RULES
For any item to be covered by Medicare, it must 1) be eligible for a defined Medicare benefit category, 2) be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, and 3) meet all other applicable Medicare statutory and regulatory requirements. Information provided in this policy article relates to determinations other than those based on Social Security Act §1862(a)(1)(A) provisions (i.e. “reasonable and necessary”).

Eye prostheses are covered under the Medicare Artificial Legs, Arms and Eyes benefit (Social Security Act §1861(s)(9)). In order for a beneficiary’s equipment to be eligible for reimbursement the reasonable and necessary (R&N) requirements set out in the related Local Coverage Determination must be met. In addition, there are specific statutory payment policy requirements, discussed below, that also must be met.

Trial scleral cover shells are not separately payable. They are included in the allowance for scleral cover shells, V2627.

The following services and items are included in the allowance for a eye prosthesis and, therefore, are not separately billable to or payable by Medicare under the prosthetic device benefit:

- Evaluation of the beneficiary
- Pre-operative planning
- Cost of materials
- Labor involved in the fabrication and fitting of the prosthesis
- Modifications to the prosthesis made at the time delivery of the prosthesis or within 90 days thereafter
- Repair due to normal wear or tear within 90 days of delivery
- Follow-up visits within 90 days of delivery of the prosthesis

Modifications to a prosthesis are separately payable when they occur more than 90 days after delivery of the prosthesis and they are required because of a change in the beneficiary’s condition.

Repairs are covered when there has been accidental damage or extensive wear to the prosthesis that can be repaired. If the expense for repairs exceeds the estimated expense for a replacement prosthesis, no payments can be made for the amount of the excess.

Follow-up visits which occur more than 90 days after delivery and which do not involve modification or repair of the prosthesis are noncovered services.

Claims for eye prostheses from nonphysicians provided in an office or nursing home setting are submitted to the DME MAC. Claims for eye prostheses from physicians in these settings are submitted to the applicable A/B MAC. Claims for eye prostheses provided in an outpatient hospital setting are submitted to the applicable A/B MAC. Eye prostheses provided in an inpatient hospital setting are included in the payment made to the hospital; therefore, claims should not be submitted to the DME MAC.

Claims for implanted components (e.g., titanium studs, magnets, etc) and procedures used to affix the ocular prosthesis to the beneficiary are not the jurisdiction of the DME MAC. Claims for these items and services will be denied as wrong jurisdiction.

Replacement of an ocular prosthesis because of loss or irreparable damage may be reimbursed without a physician's order when it is determined that the prosthesis as originally ordered still fills the beneficiary's medical needs.

**POLICY SPECIFIC DOCUMENTATION REQUIREMENTS**

In addition to policy specific documentation requirements, there are general documentation requirements that are applicable to all DMEPOS policies. These general requirements are located in the DOCUMENTATION REQUIREMENTS section of the LCD.

Refer to the LCD-related Standard Documentation Requirements article, located at the bottom of this Policy Article under the Related Local Coverage Documents section for additional information regarding GENERAL DOCUMENTATION REQUIREMENTS and the POLICY SPECIFIC DOCUMENTATION REQUIREMENTS.

When billing for an item or service at a greater frequency than that described in the policy, there must be documentation in the beneficiary’s medical records that corroborates the order and supports the medical necessity of the items and quantities billed. This information must be available upon request.
The physician's records must contain information which supports the medical necessity of the item ordered. The ocularist's documentation of the necessity for a replacement prosthesis is appropriate documentation for that claim if the replacement is necessitated by other than medical reasons.

CODING GUIDELINES

Trial scleral shells must be billed with code L9900.

The right (RT) and/or left (LT) modifiers must be used with all HCPCS codes in this policy. When the same code for bilateral items (left and right) is billed on the same date of service, bill for both items on the same claim line using the RTLT modifiers and 2 units of service. Claims billed without the RT and/or LT modifiers will be rejected as incorrect coding.

Suppliers should contact the Pricing, Data Analysis and Coding (PDAC) Contractor for guidance on the correct coding of these items.

Coding Information

Bill Type Codes:

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the article does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the article should be assumed to apply equally to all claims.

N/A

Revenue Codes:

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the article, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the article should be assumed to apply equally to all Revenue Codes.
