Coverage Guidance

**Coverage Indications, Limitations, and/or Medical Necessity**

For any item to be covered by Medicare, it must 1) be eligible for a defined Medicare benefit category, 2) be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, and 3) meet all other applicable Medicare statutory and regulatory requirements.

The purpose of a Local Coverage Determination (LCD) is to provide information regarding "reasonable and necessary" criteria based on Social Security Act § 1862(a)(1)(A) provisions.

In addition to the "reasonable and necessary" criteria contained in this LCD there are other payment rules, which are discussed in the following documents, that must also be met prior to Medicare reimbursement:

- The LCD-related Standard Documentation Requirements Article, located at the bottom of this policy under the Related Local Coverage Documents section.
- The LCD-related Policy Article, located at the bottom of this policy under the Related Local Coverage Documents section.
- Refer to the Supplier Manual for additional information on documentation requirements.
- Refer to the DME MAC web sites for additional bulletin articles and other publications related to this LCD.

For the items addressed in this LCD, the "reasonable and necessary" criteria, based on Social Security Act § 1862(a)(1)(A) provisions, are defined by the following coverage indications, limitations and/or medical necessity.

Statutory coverage criteria for oral anticancer drugs are specified in the related Policy Article. In addition, the drug must be reasonable and necessary for the individual beneficiary.

If the statutory coverage criteria are met but the drug is not reasonable and necessary for the individual beneficiary it will be denied as not medically necessary.

Drugs may be covered only if dispensed and billed to Medicare by the entity that actually dispenses the drug to the Medicare beneficiary, and that entity must be permitted under all applicable federal, state, and local laws and regulations to dispense drugs. Only entities licensed in the state where they are physically located may bill the DME MAC for oral anticancer and oral antiemetic drugs. (CMS Benefit Policy Manual, Internet-Only Manual, CMS Pub. 100-02, Chapter 15, Section 110.3 [hereinafter bp102c15, §110.3]). Physicians may bill the DME MAC for drugs if all of the following conditions are met: the physician is 1) enrolled as a Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS) supplier with the National Supplier Clearinghouse, and 2) dispensing the drug(s) to the Medicare beneficiary, and 3) authorized by the state to dispense drugs as part of the physician's license. Claims submitted by entities not licensed to dispense drugs will be denied for lack of medical necessity.

If the drug on the claim is denied as not medically necessary, the related supply fee will also be denied as not medically necessary.

GENERAL

A Detailed Written Order (DWO) (if applicable) must be received by the supplier before a claim is submitted. If the supplier bills for an item addressed in this policy without first receiving a completed DWO, the claim shall be denied as not reasonable and necessary.

An item/service is correctly coded when it meets all the coding guidelines listed in CMS HCPCS guidelines, LCDs, LCD-related Policy Articles, or DME MAC articles. Claims that do not meet coding guidelines shall be denied as not reasonable and necessary/incorrectly coded.

Proof of delivery (POD) is a Supplier Standard and DMEPOS suppliers are required to maintain POD documentation in their files. Proof of delivery documentation must be made available to the Medicare contractor upon request. All services that do not have appropriate proof of delivery from the supplier shall be denied as not

reasonable and necessary.

## REFILL REQUIREMENTS

For DMEPOS items and supplies provided on a recurring basis, billing must be based on prospective, not retrospective use. For DMEPOS products that are supplied as refills to the original order, suppliers must contact the beneficiary prior to dispensing the refill and not automatically ship on a pre-determined basis, even if authorized by the beneficiary. This shall be done to ensure that the refilled item remains reasonable and necessary, existing supplies are approaching exhaustion, and to confirm any changes or modifications to the order. Contact with the beneficiary or designee regarding refills must take place no sooner than 14 calendar days prior to the delivery/shipping date. For delivery of refills, the supplier must deliver the DMEPOS product no sooner than 10 calendar days prior to the end of usage for the current product. This is regardless of which delivery method is utilized.

For all DMEPOS items that are provided on a recurring basis, suppliers are required to have contact with the beneficiary or caregiver/designee prior to dispensing a new supply of items. Suppliers must not deliver refills without a refill request from a beneficiary. Items delivered without a valid, documented refill request will be denied as not reasonable and necessary.

Suppliers must not dispense a quantity of supplies exceeding a beneficiary's expected utilization. Suppliers must stay attuned to changed or atypical utilization patterns on the part of their clients. Suppliers must verify with the ordering physicians that any changed or atypical utilization is warranted.

Regardless of utilization, a supplier must not dispense more than a one (1) month quantity at a time.

### Bill Type Codes:

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.

### Revenue Codes:

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the policy, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the policy should be assumed to apply equally to all Revenue Codes.

### **DOCUMENTATION REQUIREMENTS**

Section 1833(e) of the Social Security Act precludes payment to any provider of services unless "there has been furnished such information as may be necessary in order to determine the amounts due such provider." It is expected that the beneficiary's medical records will reflect the need for the care provided. The beneficiary's medical records include the treating practitioner's office records, hospital records, nursing home records, home health agency records, records from other healthcare professionals and test reports. This documentation must be available upon request.

### **GENERAL DOCUMENTATION REQUIREMENTS**

In order to justify payment for DMEPOS items, suppliers must meet the following requirements:

- Prescription (orders)
- Medical Record Information (including continued need/use if applicable)
- Correct Coding
- Proof of Delivery

Refer to the LCD-related Standard Documentation Requirements article, located at the bottom of this policy under the Related Local Coverage Documents section for additional information regarding these requirements.

### Article Guidance

**Article Text:****NON-MEDICAL NECESSITY COVERAGE AND PAYMENT RULES**

For any item to be covered by Medicare, it must 1) be eligible for a defined Medicare benefit category, 2) be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, and 3) meet all other applicable Medicare statutory and regulatory requirements. Information provided in this policy article relates to determinations other than those based on Social Security Act §1862(a)(1)(A) provisions (i.e. "reasonable and necessary").

Oral anticancer drugs are covered under the oral anticancer drug benefit [Social Security Act §1861(s)(2)(Q)]. In order for a beneficiary's oral anticancer drugs to be eligible for reimbursement, the reasonable and necessary (R&N) requirements set out in the related Local Coverage Determination must be met. In addition, there are specific statutory payment policy requirements, discussed below, that also must be met.

For an item to be covered by Medicare, a written signed and dated order must be received by the supplier before a claim is submitted. If the supplier bills for an item addressed in this policy without first receiving the completed order, the item will be denied as non-covered.

### Oral Anticancer Drugs

For an oral anticancer drug to be covered, all of the following criteria (1-4) must be met (CMS Claims Processing Manual, Internet-Only Manual, CMS Pub. 100-4, Chapter 17, Section 80.1).

1. It is a drug or biological that has been approved by the Food and Drug Administration (FDA), and
2. It has the same active ingredients as a non-self-administrable anticancer chemotherapeutic drug or biological that is covered when furnished incident to a practitioner's service. The oral anticancer drug and the non-self-administrable drug must have the same chemical/generic name as indicated by the FDA's Approved Drug Products (Orange Book), Physician's Desk Reference (PDR), or an authoritative drug compendium, or it is a prodrug which, when ingested, is metabolized into the same active ingredient which is found in the non-self-administrable form of the drug, and
3. It is used for the same anticancer chemotherapeutic indications, including unlabeled or "off-label" uses, as the non-self-administrable form of the drug, and
4. It is prescribed by a practitioner licensed under state law to prescribe such drugs as anticancer chemotherapeutic agents.

A drug that is not available in an injectable form does not meet criterion 2. If an oral anticancer drug is used for immunosuppression (rather than the treatment of cancer), criterion 3 is not met, and the drug cannot be covered under the oral anticancer drug benefit. (If the drug is used for immunosuppression following organ transplant, refer to the Immunosuppressive Drugs policy.)

If criteria 1-4 are not met, the drug will be denied as non-covered.

A claim denied for the reason that a diagnosis does not fall in the section below in this Policy Article titled "**Covered ICD-10 Codes**" will receive a statutory denial as non-covered, but may be covered at appeal if and only if it can be shown to be allowed under CMS IOM 100-02, Chapter 15, Section 50 – Drugs and Biologicals, and under the Social Security Act, Sec.1861(s)(Q).

The quantity of oral anticancer drugs that is dispensed should be limited to a 30-day supply. Prescriptions may be refillable.

### Antiemetic Drugs Used With Oral Anticancer Drugs

A self-administered antiemetic drug billed with code J8498 or J8597 is covered if all of the following criteria are met:

1. It is used in conjunction with a covered oral anticancer drug, and
2. It is likely that administration of the covered oral anticancer drug will induce emesis if the antiemetic drug is not administered, and

3. The antiemetic drug is administered within 2 hours before the covered oral anticancer drug is administered.

Antiemetic drugs are covered under the oral anticancer drug benefit for the sole purpose of allowing the absorption of the covered oral anticancer drug. Therefore, coverage is limited to doses of antiemetic drugs, which are administered during the two hours before administration of the covered oral anticancer drug. Doses of antiemetic drugs administered after the administration of the oral anticancer drug (e.g., to treat nausea or vomiting which is caused by the oral anticancer drug or other etiology) are non-covered.

If all of the criteria are not met, the antiemetic drug will be denied as non-covered.

For information on the coverage of oral antiemetic drugs when they are used as a full replacement for intravenous antiemetic drugs used in conjunction with intravenous cancer chemotherapeutic regimens, refer to the Oral Antiemetic Drugs (Replacement for Intravenous Antiemetics) policy.

### Supply Fee

One unit of service of supply fee code Q0511 is covered for the first covered oral anticancer drug that is dispensed in a 30-day period. If covered drugs are dispensed by more than one pharmacy during a 30 day period, one unit of Q0511 is covered for each pharmacy. One unit of service of supply fee code Q0512 is covered for each subsequent covered oral anticancer drug that is dispensed in that 30-day period. If two dosage strengths of the same drug are dispensed on the same day, one unit of service of the appropriate supply fee is payable for each one. If more than one unit of service of code Q0511 is billed per 30 days by a single pharmacy, the excess units of service will be denied as incorrect coding. If the billed units of service of Q0511 or Q0512 exceed the number of drugs on the claim, the excess units will be denied as not separately payable.

Supply fees are eligible for coverage only for drugs that are covered under this LCD. If the drug on the claim is denied as non-covered, the supply fee will be denied as non-covered.

The supply fee code must be billed on the same claim as the drug(s). If it is not, the supply fee will be denied as incorrect billing.

J8498 is not eligible for payment of a supply fee.

## **POLICY SPECIFIC DOCUMENTATION REQUIREMENTS**

In addition to policy specific documentation requirements, there are general documentation requirements that are applicable to all DMEPOS policies. These general requirements are located in the DOCUMENTATION REQUIREMENTS section of the LCD.

Refer to the LCD-related Standard Documentation Requirements article, located at the bottom of this Policy Article under the Related Local Coverage Documents section for additional information regarding GENERAL DOCUMENTATION REQUIREMENTS and the POLICY SPECIFIC DOCUMENTATION REQUIREMENTS discussed below.

The ICD-10 diagnosis code describing the condition for which the drug is used must be included on each claim.

Claims for codes J8498 or J8597 must identify the name of the drug, the manufacturer, and the dosage strength of each tablet/suppository/etc. Only quantities of these drugs which meet the coverage criteria listed in the Policy Article may be billed using these codes. The claim must also indicate which oral anticancer drug is being used and the prescribed frequency of administration of the anticancer drug. This information must be entered in the narrative field of an electronic claim.

## **MODIFIER**

EY MODIFIER

An order for each item billed must be signed and dated by the treating practitioner, kept on file by the supplier, and made available upon request. Items billed before a signed and dated order has been received by the supplier must be submitted with an EY modifier added to each affected HCPCS code.

## **CODING GUIDELINES**

For the instructions below that apply to J codes, when claims are billed in NCPDP format using NDC numbers, different instructions may apply. Refer to the NCPDP Companion Document available through the CMS web site.

The National Drug Code (NDC) is a number, which uniquely identifies a manufacturer's product in terms of the strength of each tablet/capsule, quantity of tablets/capsules in a package, and other packaging details. Suppliers must use the NDC that matches the product dispensed.

For all NDC numbers, 1 unit of service = 1 tablet or 1 capsule. Under the Metric Decimal Quantity and the Billing Unit Standard for NCPDP, solid oral dosage forms (tablets, capsules, etc.) are billed as "each" i.e., 1 unit of service = 1 tablet or 1 capsule each. Suppliers must use the NDC that matches the product dispensed. HCPCS J codes for these drugs must not be used when billing for these drugs.

For codes J8498 and J8597, 1 unit of service = 1 mg. Under no other circumstances should the number of grams, milligrams, etc. be used for the UOS of drugs addressed in this policy.

National Drugs Codes (NDCs) may be billed only when the drug is used as an oral anticancer drug. If cyclophosphamide or methotrexate are prescribed as an oral immunosuppressive drug following an organ transplant, code J8530 or J8610 respectively must be used. (Refer to the Immunosuppressive Drugs policy for additional information.) If, for example, cyclophosphamide or methotrexate is prescribed as an oral immunosuppressive drug for other conditions (e.g., lupus, rheumatoid arthritis, etc.), a claim should not be submitted to Medicare (unless requested by the beneficiary; and in which case it would be submitted with a GY modifier) because there is no statutory benefit for oral immunosuppressive drugs in these conditions.

Code J8498 or J8597 may be billed only when the antiemetic drug is used in conjunction with a covered oral anticancer drug. Suppliers may bill only for quantities of antiemetic drugs that are to be used within 2 hours before the covered oral anticancer drug. Refer to the Oral Antiemetic Drugs (Replacement for Intravenous Antiemetics) policy for information on billing oral antiemetics used in conjunction with intravenous cancer chemotherapeutic regimens.

A list of valid NDC numbers called the "NDC/HCPCS Crosswalk" for covered oral anticancer drugs can be found on the Pricing, Data Analysis and Coding (PDAC) Contractor web site. Until a new NDC number is added to the list, suppliers must submit claims using code J8999.

Oral anticancer drugs which are not covered under the oral anticancer drug benefit (i.e., those that are not specifically listed in this policy) must be billed using code A9270 (noncovered item or service) if the supplier chooses to submit a claim.

Suppliers should contact the PDAC Contractor for guidance on the correct coding of these items.
