Coverage Guidance

Coverage Indications, Limitations, and/or Medical Necessity

For any item to be covered by Medicare, it must 1) be eligible for a defined Medicare benefit category, 2) be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, and 3) meet all other applicable Medicare statutory and regulatory requirements.

The purpose of a Local Coverage Determination (LCD) is to provide information regarding “reasonable and necessary” criteria based on Social Security Act § 1862(a)(1)(A) provisions.

In addition to the “reasonable and necessary” criteria contained in this LCD there are other payment rules, which are discussed in the following documents, that must also be met prior to Medicare reimbursement:

- The LCD-related Standard Documentation Requirements Article, located at the bottom of this policy under the Related Local Coverage Documents section.
- The LCD-related Policy Article, located at the bottom of this policy under the Related Local Coverage Documents section.
- Refer to the Supplier Manual for additional information on documentation requirements.
- Refer to the DME MAC web sites for additional bulletin articles and other publications related to this LCD.

For the items addressed in this LCD, the “reasonable and necessary” criteria, based on Social Security Act § 1862(a)(1)(A) provisions, are defined by the following coverage indications, limitations and/or medical necessity.

The use of the oral anti-emetic 3-drug combination of an FDA approved oral NK-1 antagonist in combination with an oral 5HT3 antagonist and dexamethasone (J8540) is covered if, in addition to meeting the statutory coverage criteria specified in the related Policy Article, they are administered to beneficiaries who are receiving one or more of the following anti-cancer chemotherapeutic agents:

- Alemtuzumab
- Azacitidine
- Bendamustin
- Carboplatin
- Carmustine
- Cisplatin
- Clofarabine
- Cyclophosphamide
- Cytarabine
- Dacarbazine
- Daunorubicin

- Doxorubicin
- Epirubicin
- Idarubicin
- Ifosfamide
- Irinotecan
- Lomustine
- Mechlorethamine
- Oxaliplatin
- Streptozocin

If the NK-1 antagonist, 5HT3 antagonist and dexamethasone 3-drug combination meet the statutory coverage criteria, but are not used with one of the preceding chemotherapeutic agents, they will be denied as not reasonable and necessary.

An NK-1 antagonist and/or dexamethasone are only covered as an oral antiemetic regimen when administered as the 3-drug regimen described above. The 3-drug regimen is available in differing preparations as single drugs or in multi-drug combinations. All drugs must be billed on the same claim. Refer to the POLICY SPECIFIC DOCUMENTATION REQUIREMENTS and the CODING GUIDELINES section of the related Policy Article for specific instructions. Billing for these drugs on separate claims will be denied as not reasonable and necessary, incorrect billing.

The supplier may dispense only a single course of oral antiemetic drugs at one time unless it is known there will be more than a single course of chemotherapy in the month, in which case the supplier may dispense no more than a single month's supply.

Drugs may be covered only if dispensed and billed to Medicare by the entity that actually dispenses the drug to the Medicare beneficiary, and that entity must be permitted under all applicable federal, state, and local laws and regulations to dispense drugs. Only entities licensed in the state where they are physically located may bill for oral antiemetic drugs (CMS Benefit Policy Manual, Internet-Only Manual, CMS Pub. 100-02, Chapter 15, Section 110.3). Physicians may bill the DME MAC for drugs if all of the following conditions are met: the physician is 1) enrolled as a DMEPOS supplier with the National Supplier Clearinghouse, and 2) dispensing the drug(s) to the Medicare beneficiary, and 3) authorized by the State to dispense drugs as part of the physician's license. Claims submitted by entities not licensed to dispense drugs will be denied for lack of medical necessity.

If the drug on the claim is denied as not reasonable and necessary, the supply fee will be denied as not reasonable and necessary.

Refer to the Oral Anticancer Drugs policy for information on coverage of antiemetic drugs used in conjunction with oral anticancer drugs.

GENERAL

A Detailed Written Order (DWO) (if applicable) must be received by the supplier before a claim is submitted. If the supplier bills for an item addressed in this policy without first receiving a completed DWO, the claim shall be denied as not reasonable and necessary.

An item/service is correctly coded when it meets all the coding guidelines listed in CMS HCPCS guidelines, LCDs, LCD-related Policy Articles, or DME MAC articles. Claims that do not meet coding guidelines shall be denied as not reasonable and necessary/incorrectly coded.

Proof of delivery (POD) is a Supplier Standard and DMEPOS suppliers are required to maintain POD documentation in their files. Proof of delivery documentation must be made available to the Medicare contractor upon request. All services that do not have appropriate proof of delivery from the supplier shall be denied as not

reasonable and necessary.

REFILL REQUIREMENTS

For DMEPOS items and supplies provided on a recurring basis, billing must be based on prospective, not retrospective use. For DMEPOS products that are supplied as refills to the original order, suppliers must contact the beneficiary prior to dispensing the refill and not automatically ship on a pre-determined basis, even if authorized by the beneficiary. This shall be done to ensure that the refilled item remains reasonable and necessary, existing supplies are approaching exhaustion, and to confirm any changes or modifications to the order. Contact with the beneficiary or designee regarding refills must take place no sooner than 14 calendar days prior to the delivery/shipping date. For delivery of refills, the supplier must deliver the DMEPOS product no sooner than 10 calendar days prior to the end of usage for the current product. This is regardless of which delivery method is utilized.

For all DMEPOS items that are provided on a recurring basis, suppliers are required to have contact with the beneficiary or caregiver/designee prior to dispensing a new supply of items. Suppliers must not deliver refills without a refill request from a beneficiary. Items delivered without a valid, documented refill request will be denied as not reasonable and necessary.

Suppliers must not dispense a quantity of supplies exceeding a beneficiary's expected utilization. Suppliers must stay attuned to changed or atypical utilization patterns on the part of their clients. Suppliers must verify with the ordering physicians that any changed or atypical utilization is warranted.

Regardless of utilization, a supplier must not dispense more than a one (1) - month quantity at a time.

Coding Information

Bill Type Codes:

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.

N/A

Revenue Codes:

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the policy, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the policy should be assumed to apply equally to all Revenue Codes.

Article Guidance

Article Text:

NON-MEDICAL NECESSITY COVERAGE AND PAYMENT RULES

For any item to be covered by Medicare, it must 1) be eligible for a defined Medicare benefit category, 2) be reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member, and 3) meet all other applicable Medicare statutory and regulatory requirements. Information provided in this policy article relates to determinations other than those based on Social Security Act §1862(a)(1)(A) provisions (i.e. "reasonable and necessary").

Oral Antiemetic Drugs are covered under the Oral Antiemetic Drug benefit (Social Security Act §1861(s)(2)(T)). In order for a beneficiary's oral antiemetic drugs to be eligible for reimbursement the reasonable and necessary (R&N) requirements set out in the related Local Coverage Determination must be met. In addition, there are specific statutory payment policy requirements, discussed below, that also must be met.

For an item to be covered by Medicare, a written signed and dated order must be received by the supplier before a claim is submitted. If the supplier bills for an item addressed in this policy without first receiving the completed order, the item will be denied as non-covered.

An oral antiemetic drug (J8650, J8670, Q0161-Q0181) is covered if all of the following criteria (1-4) are met:

1. The drug has been approved by the Food and Drug Administration (FDA) for use as an antiemetic, and
2. The drug has been ordered by the treating practitioner as part of a cancer chemotherapy regimen, and
3. The drug is used as a full therapeutic replacement for an intravenous antiemetic drug that would otherwise have been administered at the time of the chemotherapy treatment, and
4. Oral anti-emetic drugs administered with a particular chemotherapy treatment must be initiated within two hours of the administration of the chemotherapeutic agent and may be continued for a period not to exceed 48 hours from that time.

Criterion 3 is not met when the chemotherapy drug is an oral drug or when the chemotherapy drug is administered intravenously in the home setting because the type and dosage of chemotherapy drugs administered in these situations do not require intravenous antiemetic drugs. If all of the criteria are not met, the oral antiemetic drug will be denied as non-covered.

A 3-drug combination regimen consisting of an NK-1 antagonist, a 5HT3 antagonist and dexamethasone is covered when all of the criteria above (1-4) are met and all 3 drugs are given in combination.

If the NK-1 antagonist and/or dexamethasone is given as an oral anti-emetic outside of the 3-drug regimen, claims will be denied as statutorily non-covered, no benefit.

There are three NK-1 antagonists approved for this use, Aprepitant (J8501), rolapitant (J8670) and netupitant/palonosetron (multiple codes). Covered 3-drug regimens are:

- Aprepitant (J8501) or rolapitant (J8670) are covered when given as part of a 3-drug regimen that includes a 5HT3 antagonist (Q0162, Q0166, or Q0180) and dexamethasone (J8540).
- Netupitant/palonosetron is covered when given in conjunction with dexamethasone (J8540). A separate 5HT3 antagonist is not needed. Netupitant/palonosetron has had multiple HCPCS codes assigned, depending on the date of service. Refer to the Coding Guidelines section (below) for instructions.

If all of the above criteria (1-4) are met, the quantity of oral antiemetic drugs covered for each episode of chemotherapy cannot exceed the initial loading dose plus 48 hours of therapy. However, for the drugs granisetron (Q0166) and dolasetron (Q0180), the quantity of drugs covered for each episode of chemotherapy is limited to the initial loading dose plus 24 hours of therapy. Quantities of drugs in excess of these amounts are non-covered.

More than one oral antiemetic drug may be covered for concurrent use if more than one oral drug is needed to fully replace the intravenous drugs that would otherwise have been given.

The quantity of oral antiemetic drugs that is dispensed should be limited to a 30-day supply. Orders may be refillable.

Supply Fee

One unit of service of supply fee code Q0511 is covered for the first covered oral antiemetic drug that is dispensed in a 30-day period. If covered drugs are dispensed by more than one pharmacy during a 30-day

period, one unit of Q0511 is covered for each pharmacy. One unit of service of supply fee code Q0512 is covered for each subsequent covered oral antiemetic drug that is dispensed in that 30-day period. If two dosage strengths of the same drug are dispensed on the same day, one unit of service of the appropriate supply fee is payable for each one. If more than one unit of service of code Q0511 is billed per 30 days by a single pharmacy, the excess units of service will be denied as incorrect coding. If the billed units of service of Q0511 or Q0512 exceed the number of drugs on the claim, the excess units will be denied as not separately payable.

Supply fees are eligible for coverage only for drugs that are covered under the related LCD. If the drug on the claim is denied as non-covered, the supply fee will be denied as non-covered.

The supply fee code must be billed on the same claim as the drug(s). If it is not, the supply fee will be denied as incorrect billing.

POLICY SPECIFIC DOCUMENTATION REQUIREMENTS

In addition to policy specific documentation requirements, there are general documentation requirements that are applicable to all DMEPOS policies. These general requirements are located in the DOCUMENTATION REQUIREMENTS section of the LCD.

Refer to the LCD-related Standard Documentation Requirements article, located at the bottom of this Policy Article under the Related Local Coverage Documents section for additional information regarding GENERAL DOCUMENTATION REQUIREMENTS and the POLICY SPECIFIC DOCUMENTATION REQUIREMENTS discussed below.

The supplier must enter a diagnosis code corresponding to the beneficiary's cancer diagnosis on each claim.

The billing of an oral antiemetic 3-drug combination is accomplished by one of the following methods:

- Netupitant with its fixed combination of palonosetron (Q0181, Q9978 or J8655, depending on date of service) and dexamethasone (J8540), must be billed on the same claim.
- Aprepitant (J8501) or rolapitant (J8670) used with a separate 5HT3 antagonist (Q0162, Q0166 or Q0180) and dexamethasone (J8540) must be billed on the same claim.

In addition to the diagnosis code corresponding to the beneficiary's cancer diagnosis, claims for oral aprepitant (J8501), rolapitant (J8670) or codes Q0181 or Q0981/Q9978/J8655, depending on date of service, must also be accompanied with a diagnosis code of an encounter for antineoplastic chemotherapy.

KX, GA AND GZ MODIFIERS

If dexamethasone (J8540) and either aprepitant (J8501), rolapitant (J8670) or 300mg netupitant/0.5mg palonosetron (Q0181, Q9978 or J8655) are used in conjunction with one of the anticancer chemotherapeutic agents listed in the Coverage Indications, Limitations and/or Medical Necessity section of the related LCD, a KX modifier must be added to each code.

If dexamethasone (J8540) and either aprepitant (J8501), rolapitant (J8670) or 300mg netupitant/.5mg palonosetron (Q0181, Q9978 or J8655) are not used in conjunction with one of the anticancer chemotherapeutic agents listed in the Coverage Indications, Limitations and/or Medical Necessity section of the related LCD the GA or GZ modifier must be added to a claim line for aprepitant, rolapitant, netupitant/palonosetron or dexamethasone. When there is an expectation of a denial as not reasonable and necessary, suppliers must enter the GA modifier on the claim line if they have obtained a properly executed Advance Beneficiary Notice (ABN) or the GZ modifier if they have not obtained a valid ABN.

Claim lines billed without a KX, GA, or GZ modifier will be rejected as missing information.

CODING GUIDELINES

The following instructions apply to claims billed using J codes. When claims are billed in NCPDP format using NDC numbers, different instructions may apply. Refer to the NCPDP Companion Document available through the CMS web site.

Netupitant/palonosetron has had multiple HCPCS codes assigned.

- For claims with dates of service prior to July 1, 2015, use HCPCS code Q0181 (UNSPECIFIED ORAL DOSAGE FORM, FDA APPROVED PRESCRIPTION ANTI-EMETIC, FOR USE AS A COMPLETE THERAPEUTIC SUBSTITUTE FOR A IV ANTI-EMETIC AT THE TIME OF CHEMOTHERAPY TREATMENT, NOT TO EXCEED A 48 HOUR DOSAGE REGIMEN)
- For claims with dates of service on or after July 1, 2015 through December 31, 2015, use HCPCS code Q9978 (NETUPITANT 300 MG AND PALONOSETRON 0.5MG, ORAL)
- For claims with dates of service on or after January 1, 2016, use HCPCS code J8655 (NETUPITANT 300 MG AND PALONOSETRON 0.5 MG)

The individual drugs contained in netupitant/palonosetron must not be unbundled and billed separately.

Rolapitant is coded Q0181 for claims on or after September 02, 2015 and before July 1, 2016. For dates of service on or after July 1, 2016 and before January 1, 2017 Rolapitant is coded Q9981. Rolapitant is coded J8670 for dates of service on or after January 1, 2017.

Codes J8501, J8540, J8650, J8655 and Q0162-Q0181 or J8670, Q9981 (Q9978) may be billed only when the oral antiemetic drug is used in the situations described in Non-Medical Necessity Coverage and Payment Rules section. The quantity of drugs billed using codes Q0162-Q0181 (Q9978) must not exceed the 24 or 48 hours of therapy specified above.

Refer to the Oral Anticancer Drugs policy for information on coding antiemetic drugs used in conjunction with oral anticancer drugs.

Suppliers should contact the Pricing, Data Analysis and Coding (PDAC) Contractor for guidance on the correct coding of these items.

Coding Information

Bill Type Codes:

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the article does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the article should be assumed to apply equally to all claims.

Revenue Codes:

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the article, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the article should be assumed to apply equally to all Revenue Codes.
